

CITY OF MILWAUKIE

TRAFFIC REGULATION NO.: **523** DATED: **2/27/2025**

As provided in the City of Milwaukie Municipal Code Chapter 10.08 Section 020, and having based my determination only upon:

- a. Traffic engineering principles and traffic investigations;
 - b. Standards, limitation and rules promulgated by the State Highway Commission;
 - c. Other recognized traffic control standards;
 - d. Required needs.
-

Need for Traffic Regulation:

Back in 2020, temporary TRG 509 was created as part of the Lake Road Improvements project (CIP2019-S20) to provide a route for school buses to access northbound 27th Avenue via Willard Street. Due to sight distance concerns, an all-stop intersection was established to allow time for buses to make a left turn onto SE 27th Avenue. There is still a need for bus access and the all-stop intersection to make the temporary TRG into a permanent TRG.

General Description of Regulation:

To make temporary TRG 509 into a permanent TRG. This includes keeping the intersection of SE Willard Street and SE 27th Avenue as an “All-Way Stop” sign controlled intersection and removing the right-turn only signage and pavement marking, allowing left-hand turns from SE Willard Street onto SE 27th Avenue.

General Locations:

The intersection of Willard Street and 27th Avenue.

Description for New Traffic Control Measure(s):

Install 2 stop signs, and appropriate new traffic change warnings, on the south, and north approach of the intersection of SE Willard Street and SE 27th Avenue. Remove both the “Right Turn Only” sign and “No Left Turn” sign. Remove the right turn arrow pavement marking at the SE Willard approach.

Jennifer Garbely
