**Subject:** "Problem-Solving Partnerships" COPS Grant Application Executive Summary

---

**Action Requested:**

Information Only

**Background:**

As you are aware, the City of Milwaukie has participated in the Federal Crime Bill COPS grant application process since 1994. We have received grant awards under the following programs:

COPS FAST, COPS MORE, and the Universal Hiring Program, a supplement to the COPS FAST grant.

In the later part of July, we received information on a continuation of the Federal Crime Bill COPS program, "**Problem-Solving Partnerships**" grant application process. The COPS grant program will provide policing agencies and community-based entities with a unique opportunity to work together to address persistent crime and disorder problems. This innovative community policing (ICOP) program is one of several initiatives offered by the U.S. Department of Justice under the 1994 Crime Act to support innovative community policing and to complement the COPS officer hiring initiatives, one of which being the Universal Hiring Program recently awarded to The City of Milwaukie.

As this grant asks applicants to focus on one specific crime or disorder problem, we researched the grant application and determined that the **persistent problem** to address under this grant would be **public disorder in our downtown business district**. The grant amount requested is **\$147,888.00**, with **\$80,000.00** of that amount to be used for equipment and technology that will allow the partners and stakeholders to better address long-term solutions to the identified problem, and allow public safety to continue in developing long-term solutions to future community crime problems. Personnel, community-police training, and an evaluation by Portland State University are part of the grant program. **This grant does not require a local match, although in-kind resources are encouraged.** About \$1,000.00 of in-kind resources were allowed in the application.

**The "partners" for this program are the Milwaukie Police Department and the City of Milwaukie, Office of Neighborhoods.** Also, stakeholders that share in this particular problem were identified and their support received.

As you know, any grant application requires dedicated research and development time. **The deadline was August 15, 1996**, and we had to begin the process in order to take advantage of this opportunity. On July 22nd, the plan was discussed with acting City Manager Charlene Richards and on July 25th, police department volunteer Dodie Linder was hired to work on a temporary basis to complete this grant application. The completed grant application was reviewed by City Manager Dan Bartlett and received his signature on August 14th, the same day the application was sent out to meet the deadline.
