ORDINANCE NO. 1429

AN ORDINANCE relating to street and alley vacations, the cost of proceedings thereon, and benefits to be assessed against the abutting property, and declaring an emergency.

OREGON CITY DOES ORDAIN AS FOLIOWS:

- Section 1. (a) Whenever a petition for the vacation of a street or alley or any part thereof is presented to the City Recorder for filing and consideration by the Commission of Oregon City, the person presenting such petition shall deposit with the City Recorder the sum of \$35.00 from which the City Recorder shall deduct the cost of publishing and posting notices of the proposed vacation and such other expenses as are incurred. In case the actual cost exceeds the amount of the deposit, an additional sum sufficient to cover such deficiency, shall be collected by the City Recorder before the vacation is completed. In case the actual costs be less than the amount deposited, any excess or balance shall be refunded.
- (b) The Commission, upon hearing such petition, may grant the same in whole or in part, or may deny the same in whole or in part, or may grant the same with such reservations as would appear to be for the public interest, including reservations pertaining to the maintenance and use of underground public utilities in the portion vacated, and may make an assessment and provide for the payment to Oregon City for such sum of money as the Commission may find to be just and equitable as an assessment of special benefit upon the real property abutting upon the street or alley or part thereof vacated, such assessment together with all costs not to exceed the amount of special benefit resulting or inuring to the abutting property by reason of such vacation.

Notice of proposed assessments for benefits shall be given to the owners of the property to be assessed at least seven days before the Commission meeting at which assessments are to be considered or made, which notice the City Recorder shall cause to be given either by publication in one issue of a newspaper of general circulation published in Oregon City or by personal service upon such property owners.

(c) In the event any such petition is wholly denied, only the cost of publishing and posting occasioned by the petition shall be retained. Any money retained, and any sum assessed and collected as benefits, shall be paid into the City treasury.

Section 2. Inasmuch as this ordinance is necessary for the immediate preservation of the public health, peace and safety of Oregon City, in this: That several vacations are before the Commission at this time and existing conditions in Oregon City are such that it is necessary that this ordinance take effect immediately, therefore, an emergency is hereby declared to exist and this ordinance shall be in full force and effect from and after its passage by the Commission and approval by the Mayor.

Read first time and ordered published at an adjourned regular meeting of the Commission held on the 10th day of April, 1956, and to come up for second reading and final passage at an adjourned regular meeting of the Commission to be held on the 24th day of April, 1956, at the hour of 8:00 P.M.

Commissioner George Helzer Commissioner Pete Laurs City Manager Robert Clute

Oregon City Central Labor Council

The Mayor opened the meeting for discussion.

Richard House, Secretary of Local No. 1159, introduced those at the meeting who were speaking for the firemen. Mr. House stated that at the present wage level they were unable to maintain a decent standard of living. He read figures from the Labor Bureau supporting their demand. He stated that the median level for supporting a family was \$4579. He said that firemen had a skilled job and that they were not being paid what they were worth. He felt they were not being unjust inasmuch as the proposed school budget had listed \$3965 for a janitor.

Frank Fillpot of the Central Labor Council spoke in endorsement of the wage increase. He stated that the fireman's job was hazardous and asked if the budget could not contain certain wage increases.

Howard Klemsen spoke in favor of the \$30 wage increase for firemen. He felt that the town was unionized and that the Commission should consider this. He said that he did not want a labor turn-over in the Fire Department and that the firemen should be on an equal par with the paper mill. He said that firemen have to train constantly and have a 72-hour week and that we should protect skilled firemen and avoid the labor turn-over.

William Riggs spoke and stated that the lowest paid rate in the paper mill was \$1.84 per hour. He said firemen do not compare with this rate. He stated that firemen are skilled men and he desired to know that he had the very greatest protection available. He said that he never complained about taxes. He said that compared to the paper industry the firemen are entitled to whatever they can get.

E. J. Whelan from Portland, an officer in the Firemen's Association, spoke. He stated that he realized the tax law in Oregon binds city officials in their action but that no city is paying enough to its firemen. He felt that the firemen should be allowed to place the issue on the ballot. He further stated that firemen have to perform many functions and therefore serve as master firemen and that no fair-minded person would not allow the firemen to place their issue on the ballot.

Mr. Helge Trygg spoke and stated that he was grateful to the firemen for all past favors that they had done for him and spoke in favor of the wage increase.

Mr. Rod Davis, an officer in the Firemen's Association, spoke. Mr. Davis pointed out that wages are a matter of inducement to becoming a fireman. He said that firemen in Oregon City have to be better firemen than in Portland because it is a small town. Mr. Davis also spoke in favor of an expanded fire department.

Frank Fillpot again arose and stated that on the basis of a 72-hour week firemen were receiving only about \$1.20 per hour.

The Mayor then asked for questions from the floor.

Lloyd Minor asked what would happen if the ballot were not carried. He was told that the wage increase would then be out.

Fred Watson of the Street Department stated that he felt the wage increase should be for all city employees.

George Edwards of the Cemetery Department stated that it costs as much to feed his family as it does that of a fireman.

Ferrell Heater spoke and stated that he was also desirous of saying that the question of raises for all city employees be placed on the ballot.

Frank Fillpot again spoke and stated that, although others are not working under a 72-hour week, they should be considered.

The Mayor spoke and stated that he felt the request from the firemen should be denied and that any wage increase will and should include all employees of the city. He stated that all employees had always benefited under any blanket increase. He stated that the city is limited in its means of taxation but he cited increases in the past years to raise firemen to \$3960, which is a raise of about 40%. He said that although the Commission was inclined to want raises he cited the fact that the people turned down wage increases in 1953. He said that the city has tried to increase the fringe benefits for employees to compensate them for lower wages and he cited the sick leave policy which he felt was not surpassed anywhere. He also said that the present budget as proposed incorporates a health insurance plan for all employees. He said that they have tried to keep pace with other cities and even the paper industry, although he realized that the city probably could never compete fully with the paper industry.

Commissioner Helzer spoke and said he felt very bad about the whole situation in that things aren't getting cheaper. He stated that all employees are entitled to compensation if one group is to get it but he stated further that we cannot compare the city to private industry. He said that the city tried to meet each issue on its own merits but wondered how the city was going to increase wages without voter approval. He stated he realized that the employees wanted more take-home pay but he felt that all employees must be considered equally for any wage increase.

Commissioner Laurs spoke and stated that not only firemen but all employees are deserving of an increase. He said that all employees must be included as all are working for the city and the people and all must be treated alike.

Howard Klemsen again spoke and stated he felt that all employees should be included and that the question should be placed on the ballot. He stated that the employees had many friends amongst citizens and that the group should forget about the firemen's letter and speak only as a group and let the employees try to sell their plan.

Richard House stated that he only represented the firemen but all should be included.

Rod Davis said that the city must look at increases in other industry when considering employees.

The Mayor then stated that he wanted an expression of opinion from all employees on the issue of submitting the question on the ballot and that the issue must be determined by the employees in that they must determine whether or not they wish to submit the \$30 wage increase question to ballot vote or accept the health insurance plan as offered by the city.

Hayden O'Brien of the Fire Department spoke stating he did not think the insurance plan as offered by the city was worth the amount that the employees would pay. He stated that he only paid approximately \$2.00 for his plan now.

There being no further business the meeting adjourned to Friday, April 13, 1956, at 10:00 A.M.
