Mrs. Leola Patton, Mr. Kenneth Hess, Mr. W.M. Brunell, Mr. S. W. Taylor, Mrs. E. Mills, Mr. Lester Lancaster, Mrs. W. M. Brunell, Mr. Ora Patton, a group of Citizens living on Irving Street, Just off of Pearl, appeared before the Commission requesting that an ordinance be passed or something be done to restrain a Mr. Wilkerson, living in the same neighborhood, from maintaining a large Deisel Logging Truck along side of his home. The group claimed that Mr. Wilkerson was in the habit of starting the engine of the truck in the early hours of the morning and letting it run to warm it up, thus creating a nuisance by the noise and fumes from the engine. The matter was discussed at great length and during the discussion it was brought out that Mr. Wilkerson was awaiting trial on a charge of creating a nuisance with his truck. The Commission took no action but did inform the group that they would await the out come of the trial and in the meantime a study would be made to see what legal action could be taken to abate the noise and fumes.

Jack Caldwell appeared before the Commission requesting that that portion of Brighton Avenue from where the pavement ends to the corner of Charmen Street be improved as an all-weather road. After some discussion it was pointed out to Mr. Caldwell that the cost of the improvement was a responsibility of the individual property owners and the request was denied. Mr. Caldwell then requested that he be given an estimate of the cost of improving said portion of Brighton Avenue and he would endeavor to collect the funds from the property owners. The City Manager was instructed to make the necessary estimate.

. The City Manager brought up the matter of two hour parking on the South side of Fifth Street between Center and Washington Street and in Connection therewith the following resolution was read and upon motion adopted and passed:

ZELLA BOWERS City Recorder

A petition from the property owners of Harrison Street between Seventh and on Nivision and Division/Street between Harrison and Molalla Avenue was read requesting that the restriction of parking on the West side of Harrison Street and the South side of Division Street within the above described boundaries be removed. After some discussion the City Manager was instructed to have the necessary resolution prepared in compliance with the request and action would be taken at the next meeting.

Upon motion the City Manager was authorized to purchase a motorized lawn sweeper to cost \$265.00.

The following letter addressed to the City Manager from Stevens & Thompson Engineers, concerning the contract for the construction of the sewage treatment plant was read:

September 9, 1952

Robert A. Finlayson City Manager Oregon City, Oregon

Dear Mr. Finlayson:

In setting up the call of bids for the sewage treatment plant we deleted from the work the sludge storage tank originally called for by the plans. Inasmuch as very favorable bids have been received it would seem advisable to include this in the contractor's work.

First, his bid of \$56 per cubic yard for the concrete and 10.5 cents per pound for the steel is as low a price as has been obtained for concrete work of this kind since 1946 or before. Second, it would be of value to have this storage unit designed as a future digester so that a cover could be installed later if desired. Third, which is of value to the contractor only is that he could use his forms for the digester twice. Fourth, should it be decided to build this unit later is would cost much more it is believed.

There is one other item to be considered at this time and that is the 14" steel pipe for use at Gladstone. In the contract is sufficient pipe to extend 5' outside the building line. However, an alternate provides for sufficient pipe to go around the digester and under our access road. This is a logical cost to Gladstone and not Oregon City. If installed you should bill Gladstone for its cost.

The money value of this additional work is as follows:

Sludge Storage Tank

Concrete \$9350
Steel 1870
Misc. pipe, etc. 300
Sub-total \$ 11520 \$ 11520

Steel pipe

 Pipe in place
 1186

 Excavation
 150

 Sub-total
 \$1336
 \$ 1336

Total estimated cost of work \$12846

Would you have the Commission consider these items and let us know whether or not we should instruct the Contractor to proceed with this portion of the work?

Sincerely yours,

STEVENS & THOMPSON ENGINEERS
