PROJECT DESCRIPTION

Construct approximately 3,690 feet of 8" diameter sanitary sewer (see Exhibit A):

- * On SE Firwood from Winsor Drive to 55th Avenue
- * On SE 55th Avenue and an easement from SE Firwood to Willow
- * On SE Willow from 400 feet west of 55th Avenue extended to Hollywood Avenue
- * On SE Stanley Avenue from Willow to Logus Road
- * On Logus Road from Stanley 470 feet west.

PLANS, SPECIFICATIONS, COST ESTIMATE

- * Plans: see preliminary plans, Exhibit A
- * Specifications: 1980 Standard Specifications published by the Oregon Chapter of the American Public Works Association
- * Cost estimate: \$374,000 without lot laterals. Lot laterals estimated at \$550.00 each.

HOW THE WORK WILL BE DONE

- * Design: by a consulting engineering firm to be selected by City Council.
- * Inspection: by City personnel.
- * Construction: by private contractor through competitive bid process.

DISTRICT BOUNDARIES

See attached Exhibit A.

METHOD OF ASSESSMENT

Per square foot of land per lot with following limitations:

- * Maximum area per lot to be assessed is 15,000 sq.ft.
- * Maximum depth per lot to be assessed is 150 feet.

Assessment will be computed by calculating the assessment area based on least area times the assessment rate. The assessment rate is computed by dividing the total project costs by the total assessment area in the LID boundaries.

CITY CONTRIBUTION

1. City will prepay assessments (excluding lot lateral) for properties within the LID not signing petition. City's cost will be recovered as those property owners not participating request or are required to connect to City sewers in the future. Estimate as of 24 August '87 is \$97,334.49 (see Exhibit B).
2. City will pay pro-rata share of mainline costs for ultimate service area outside of the LID. City's cost will be recovered as per 1., above. Estimate as of 24 August '87 is \$152,875.46 (see Exhibit C).

INDIVIDUAL LOT/PARTICIPANT INFORMATION

See attached Exhibit B.

NON-REMONSTRANCE AGREEMENTS

None recorded.

LAND USE POLICIES

1. Comprehensive Plan, Public Facilities & Service Element:

- * "Goal Statement:

To plan, develop, and maintain a timely, orderly and efficient arrangement of public facilities and services to serve urban development." See attached plan for service to the area, Exhibit D. The City of Milwaukie, City of Portland, and Clackamas County cooperated in establishing an urban service boundary. In 1985, the City of Portland adopted an urban service boundary, recognizing Milwaukie's short-term annexation boundary east of Linwood Avenue (see Exhibit D).

- * Objective #2 - Coordination:
"To encourage cooperation and coordination between all public service agencies to maximize the efficient provision of all services."
- * Objective #5, Policy #3
"The City will ensure that all future residents are provided with adequate wastewater collection services." This project will provide sanitary sewage collection facilities to an area within Milwaukie's short-term urban service boundary.

2. URBAN SERVICE POLICY
EXCERPTS FROM RESOLUTION 12-1985

4. The City shall consider requests for delivery of services within the urban service boundary wherever the following conditions exist:
 - a. A majority of the residents and property owners within an area to be served desire delivery of services by the City of Milwaukie.
 - b. The City can meet the new demands without diminishing its ability to serve existing City of Milwaukie residents and businesses.
 - c. The City can supply the needed services most effectively and efficiently.
5. The City shall deliver services within the urban services boundary by means of annexation and, on an interim basis, through alternative approaches that are demonstrated to be in the best interest of both the City and future service areas.

URBAN SERVICE BOUNDARY

In 1982 the City retained Cogan and Associates to study areas East of the City for possible annexation. As a result of that study, the City Council in conjunction with Portland and Clackamas County adopted a short-term annexation Boundary.
