Office Willard handed out the Police Department Annual Report and current crime statistics. Rivercrest continues to show a low level of calls, mostly for small thefts. He also reported on the success of the Christmas 911 project and invited attendees to assist with wrapping the gifts in December. He also reported that there is no definite date to begin construction of the PD building as it will depend on a future affirmative vote for a bond to fund construction. The former Mt. Pleasant School building is currently rented to a private school. He reminded attendees to contact the Police Department regarding suspicious activity, if not an emergency call 503-655-8211.

Guests Mark Griswold and Lauri Hennings presented information on the inventory of White Oaks in the tri-county area and explained the importance of identifying and preserving the remaining trees, which were once a large part of the landscape. Information is available through their project for appropriate landscaping around the trees. Volunteers are also being sought for a landscaping with White Oak workshop. More information is available through the Oak Prairie Workgroup at the Intertwine.org.

After general discussion the meeting adjourned.
