

CITY OF MILWAUKIE

TEMPORARY TRAFFIC REGULATION NO.: 509 DATED: 4/13/2021

As provided in the City of Milwaukie Municipal Code Chapter 10.08 Section 020, and having based my determination only upon:

- a. Traffic engineering principles and traffic investigations;
 - b. Standards, limitation and rules promulgated by the State Highway Commission;
 - c. Other recognized traffic control standards;
 - d. Required needs.
-

General Description of Regulation:

To temporarily make the intersection of SE Willard Street and SE 27th Avenue to be an “All-Way” Stop Sign controlled intersection for all 3 legs for the duration of Construction of the Lake Road Improvements project. In addition, temporarily remove the right-turn only signage and pavement marking allowing left-hand turns from SE Willard Street onto SE 27th Avenue.

General Location:

The intersection of SE Willard St. and SE 27th Avenue.

Need for Traffic Regulation:

Construction on Lake Road, as part of the Lake Road Improvements project (CIP2019-S20), requires traffic control to be one-way westbound to allow for a work zone, and a detour installed on SE Washington Street to connect back to Lake Road via SE 34th Avenue. The Dispatch and Routing Supervisor of North Clackamas School District (NCS D) indicated that school buses from Milwaukie High School are not able to travel into downtown Milwaukie due to the narrowness of Main Street and the safety concerns of the heavy and light rail crossings. Therefore, in order to provide a route for school buses to pick up and distribute students in the surrounding areas, buses will need to access northbound 27th Avenue via Willard Street. Due to sight distance concerns, an all-stop intersection needs to be established in order to allow time for buses to make the left turn onto SE 27th Avenue.

Description for New Traffic Control Measure(s):

Install 2 stop signs, and appropriate new traffic change warnings, on the south, and north approach of the intersection of SE Willard Street and SE 27th Avenue. Bag both the “Right Turn Only” sign and “No Left Turn” sign. Spray paint black the right turn arrow pavement marking at the SE Willard approach.

Steve Adams, City Engineer

I hereby establish the following temporary traffic regulation, a stop-controlled approach at the intersection of SE Willard Street and SE 27th Avenue, which will take effect as soon as appropriate signs or markings are posted in the areas affected. These traffic control measures are temporary and will be disestablished at the conclusion of temporary traffic control measures on SE Lake Road as part of the Lake Road Improvements project.

Ann Ober, City Manager
