Mayor Gamba called the meeting to order at 4:02 p.m.

1. Master Fee Schedule Review – Discussion

McClung presented the proposed biennium Master Fee Schedule (MFS) for fiscal years 2023 and 2024 (FY23 and FY24) starting with administrative costs, noting no changes had been proposed to billable hourly rates. **McClung** continued to review changes in building fees noting that the fees were based on the Consumer Price Index (CPI) range of 4.8 to 5.2 percent as approved by the State of Oregon. **Briglio** and **Vandagriff** explained how CPI had increased over the last two years and the city's proposed increase is standard. **Councilor Batey** and **Vandagriff** discussed how the 2.5% increase mentioned in the annual adjustment section of the draft MFS had been decided and how it corresponds with the CPI.

McClung explained that the standard base fee for business registrations would be increased to \$165 for FY23 and \$175 for FY24, and the base fee for starting a business between July 1 and December 31 would increase to \$83 for FY23 and \$88 for FY24. **Councilor Batey** asked why fees for full time employees (FTE) were not increased, and **McClung** advised that Dennis would be evaluating business registrations in June and FTE fees may be updated at that time.

McClung explained how increases in the cost of managing downtown parking and staff time had influenced the decision to increase parking fees. **Councilor Falconer** reminded the group of a previous conversation that monthly parking should not be less than a TriMet monthly pass and observed that the proposed increase would satisfy that idea. **McClung** concluded parking fees by mentioning that no changes were made to the parklet use fees.

McClung began reviewing engineering changes noting the omission of the tree removal fee which would be included in the new section of tree code fees. All proposed engineering fee changes were flat increases and within a range of 9% to 11%. **McClung** reminded the group that engineering fees had not been increased in the last two biennium. The group started discussing residential and commercial demolition permits and how a demolition permit differs from a clearing/construction permit

McClung, Passarelli, and Mayor Gamba discussed changes to utility fees, including fixed rates based on meter size, residential versus commercial, water consumption, and wastewater fixed and consumption rates with **Passarelli** noting all proposed changes were in alignment with previous years. **Mayor Gamba** and **Passarelli** discussed opportunities for credits on stormwater bills in relation to trees, bioswales and rain gardens for commercial, industrial, and some residential customers who meet certain requirements for green space and landscaping. **Passarelli** agreed to report back to Council as to what the criteria are and whether trees are included towards the stormwater credit. **Councilor Batey** did not realize the city offered stormwater credits and asked how the credit is promoted. **Passarelli** responded there is some information on the city's website. **Councilor Batey** posed the idea of incentive programs for disconnecting downspouts, like City of Portland had offered – which affects the city's inflow and infiltration (I&I) issues as discussed with Clackamas County Water Environment Services (WES).

The group paused the conversation to test Zoom video conference functions.

Passarelli resumed the utility fees discussion by addressing a question that was raised during the last Budget Committee meeting regarding max rates on both Safe Access for Everyone (SAFE) and the Street Surface Maintenance Program (SSMP). SSMP was established in 2008 with a cap of \$250 for nonresidential accounts and the cap had been increased each year in conjunction with rate increases based off the CPI. The SSMP cap is now around \$350. **Mayor Gamba** asked how many entities hit the cap, **Passarelli** replied only a handful, but more - such as schools, parks, cemeteries, libraries, government offices, , and multifamily residential properties, qualify for the SAFE cap which is around \$450.

Ober and **Passarelli** noted that Council would discuss system development charges (SDCs) for wastewater on May 17 and any changes made then would result in changes to the budget. **Councilor Batey** inquired if there had been much response from SDC stakeholders and **Passarelli** reported there had been no response.

McClung reported that minimal changes had been proposed to library fees, and shared what services had been eliminated such as CD-ROMs and kindle kits.

McClung presented the proposed changes to the miscellaneous fees, including an increase to fees for lien docket searches - which had not increased last biennium, and a new fee for renting the South Downtown (SODO) Plaza. **Councilor Batey** voiced concerns regarding the cost of the plaza rental, wanting the city to encourage people to have events there, and suggested a lesser fee around \$100 might entice others to promote or bring events in. **Council President Hyzy** pointed out the fee could be waived at the discretion of the city manager. **Council** discussed previous conversations and research around the rental fee, noting the need to see if the current fee might be a barrier, and wanting to promote the use of the space. **Brooks** provided insight on how the fee amount had been reached, citing parking and labor costs related to public works staff and police, and suggesting that if the fee were to cover those costs, it would be around \$1500. City staff knew the higher fee wasn't in line with what Council had wanted, so to make the fee accessible it was reduced for the first year to only parking costs but may need to be reevaluated. **Councilor Batey** and **Brooks** discussed that how long the plaza was rented did not affect the cost of using the space and that the space is only available on the weekends. **Council President Hyzy** remarked that the proposed fee is already on the low end. **Brooks** reiterated this lower, parred down cost is for the first year to incentivize people to use the space, then will be modified as

needed. **Councilor Nicodemus** echoed Councilor Batey's concern about the fee being a barrier but wanted to point out that neighborhood district association (NDA) grant program dollars could be used to offset these costs as well.

Ober brought the conversation back to the rental fee associated with the SODO Plaza and asked where Council stood on the fee. It was Council consensus to keep the proposed plaza use fee, noting the city manager could waive the fee, and NDA grant funds could be used. **Council** also agreed on the importance of encouraging the use of the plaza. **Brooks** verified Council's thoughts had been heard and informed the group that the city's events and emergency management coordinator would be before Council in May to provide an events update.

McClung continued to review miscellaneous fees and presented a new credit card fee as a pass through had been added due to the city paying with credit card fees and did not have a written rule to discourage multi-thousand dollar permits from being purchased with a credit card – which would cost the city several thousand dollars per paid permit. **Council President Hyzy** and **McClung** discussed who used credit cards for large permit purchases and the fee being used as a deterrent for credit cards and to encourage payment of such fees by check.

Councilor Batey readdressed the request for clarity between building demolition permits and engineering clearing/construction permits. **Adams** clarified that clearing a site is like grading – the removal of grass and shrubs from a lot – it is not a demolition as no structure is involved. The group commented on updating the text to reflect clearing for construction or clearing and grading for construction. **Council President Hyzy** noted the proposed Tree Code would have a development section that may intersect with the engineering fees. **Vandagriff** had never seen the clearing permit used and was unsure what it is for, the grading permit is used primarily for larger commercial lots – a single family house is not charged to ready a lot for construction. **Adams** and **Council President Hyzy** confirmed the clearing/construction permit for both single and multi-family residential can be deleted from the fee schedule.

Adams stated that fees-in-lieu of construction (FILOC) were raised strictly based on the Construction Cost Index (CCI) percentage that SDCs were raised on. **Mayor Gamba** and **Adams** clarified that a max FILOC increase depended on street design and what is and isn't present like curbs and sidewalks.

McClung presented changes for court fees, mentioning minor increases and a reduced failure to appear (FTA) fee to incentivize clearing backlogged cases and reducing payoff barriers. **Mayor Gamba** asked if the FTA reduction was retroactive, and **McClung** believed the fee reduction would be retroactive. **McClung** cited no increase in traffic and parking fines.

McClung continued to planning fees and noted updated verbiage related to Oregon House Bill (HB) 2001, and an addition/expansion to the replat area of the fee schedule.

Councilor Batey requested to return to the court fees due to a possible typo on the boot release fee which read as \$450 but wanted to confirm if the fee was to be reduced to \$45. **McClung** explained the fee originally was \$40 now \$50. **Stauffer** summarized a clarification from staff regarding the retroactive FTA fee – explaining that during the pandemic the FTA fee had been dropped to \$25, the proposed \$40, that would take effect on July 1, would increase the fee but not to the original \$75.

McClung and **Councilor Batey** confirmed that empty replats are not charged a fee.

McClung mentioned the new tree code fee section noting that staff would present the proposed fees during the April 5 regular session. **Ober** reminded Council the tree portion would be adopted prior to the Master Fee adoption.

McClung reported there were no changes to police fees.

McClung continued to SDCs noting increases were due to CCI as Adams had mentioned earlier. **Councilor Batey** asked for clarification on the upcoming SDC discussion as to whether the topic would be on water or wastewater, **Passarelli** confirmed the discussion would be about wastewater SDCs.

McClung reviewed proposed changes to right-of-way (ROW) fees that were set by the Milwaukie Municipal Code (MMC) to increase by 3% each year.

McClung reported that no changes were proposed to violations of the MMC.

McClung advised that the city is in the process of reviewing solid waste rates and will have further updates to incorporate changes into the fee schedule. **Councilor Batey** and **McClung** discussed the how long solid waste rates were in effect, confirming they were updated annually.

Councilor Batey pointed out motor vehicle fuel tax penalties and questioned when the listed situations would arise. X

2. Adjourn

Mayor Gamba announced that after the meeting Council would meet in executive session pursuant to Oregon Revised Statute (ORS) 192.660 (2)(h) to consult with counsel concerning the legal rights and duties of a public body with regard to current litigation or litigation likely to be filed.

Mayor Gamba adjourned the meeting at 4:56 p.m.

Respectfully submitted,

Nicole Madigan, Deputy City Recorder

Subject: **Biennium 2023-2024 Master Fee Schedule Update**

ACTION REQUESTED

Council is asked to review the proposed Master Fee Schedule for the biennium budget 2023-2024.

HISTORY OF PRIOR ACTIONS AND DISCUSSIONS

[April 2020](#): Council received the proposed fiscal year (FY) 2021 and 2022 Master Fee Schedule at a work session.

[June 2020](#): Council adopted FY 2021 and 2022 Master Fee Schedule by Resolution [44-2020](#).

ANALYSIS

The city's fiscal policies state that the city will periodically and systematically review user fees and charges as adopted in an updated Master Fee Schedule. Presented here is a two-year schedule that coincides with the biennium budget process.

The Master Fee Schedule, if adopted, will go into effect on July 1, 2022, for FY 2023 and FY 2024. Each year departments review the fees and make changes as necessary. The suggested changes generally reflect either a new internal practice or a change in cost. The goal is to accurately recover costs incurred by the city, as stated below in the city's adopted fiscal policies:

The City will maximize the use of service and user charges in lieu of ad valorem taxes and subsidies from other city funds, for services that can be identified and where costs are directly related to the level of service provided. The Council may establish fees at less than "full cost recovery" when deemed in the public interest. The city will periodically and systematically review user fees and charges to take into account the effects of additional service costs and inflation.

The significant changes in the FY 2023 and FY 2024 update are:

- Building fees increased based on the Consumer Price Index (CPI) range of 4.8-5.2% and have been approved through the State of Oregon.
- Business registration fees increased by the CPI and rounding for even amounts.
- Downtown parking permit fees increased by the CPI and rounding for even amounts. Parking fines remained unchanged.
- Engineering changes include 9-11% price increases as prices were flat prior two biennium.
- Fees in lieu of construction (FILOC) have increases based on the Construction Cost Index (CCI).
- Minor verbiage changes to Library.

- Fees for credit cards and rental of the South Downtown Plaza were added to the Miscellaneous section in this biennium.
- Municipal Court reduced the failure to appear fee to incentivize more defendants to close existing failure to appear cases.
- Planning added verbiage related to Oregon House Bill 2001 and expanded the city's replat fees.
- Section 11 "Trees in the City" has been added related to the adopted Tree code, which will be discussed in detail later in the evening.
- System Development Charges increase based on the CCI.
- Utilities have several adjustments:
 - Water utility rates will increase 2.5% each year of FY 2023 and FY 2024.
 - Wastewater utility rates will increase 2.5% each year of FY 2023 and FY 2024.
 - Stormwater utility rates will not change for FY 2023 and FY 2024.
 - Street Surface Maintenance Program (SSMP) and Safe Access for Everyone (SAFE) fees increase 4.60% each year based on the Seattle CCI for FY 2023 and FY 2024.
 - Graph for FY 2023 is included.
 - Note that there is no comparison data for FY 2024.
- Right-of-way utility fees increase 3% each year, per Municipal Code.

The Master Fee Schedule document is updated through the course of the year for changes or additions of fees approved by resolution or ordinance. Fees that are pass-through such as excise tax and others are also updated in the fee schedule once we are notified by the governing agency.

BUDGET IMPACTS

Changes in the Master Fee Schedule will have various impacts city-wide.

WORKLOAD IMPACTS

Minimal impacts will occur city-wide to update the fees in the current systems used by staff.

CLIMATE IMPACT

None.

COORDINATION, CONCURRENCE, OR DISSENT

Changes and updates were solicited from all department heads and staff.

STAFF RECOMMENDATION

Staff recommends that Council provide feedback to staff on the schedule in preparation for adoption of the Master Fee Schedule for FY 2023 and 2024 at a regular session held in June with the budget adoption.

ALTERNATIVES

A delay in adoption will leave current fees in place. Staff will bring back the fee schedule back for discussion prior to adoption in June 2022.

MASTER FEE SCHEDULE

City of Milwaukie, Oregon

The City of Milwaukie provides a full range of municipal services to the community, including police protection, traffic control and improvement, street maintenance and improvement, water, wastewater, and surface water management services, planning and zoning regulation, building inspection and regulation, and community library services. This Master Fee Schedule consolidates all City fees and charges adopted by City Council resolution for the various services that the City provides. Typically, it is updated annually and reflects all fee resolutions passed by Council during the year.

Fee Variance and Waiver Statement

Based upon an unusual circumstance or event, past practices, demonstrated hardship, or public benefit, the City Manager is authorized to waive or decrease a fee(s) or charge(s) in a matter or establish a fee not yet authorized in this schedule. When a new fee is established by the City Manager it shall be incorporated into this document, and it shall be included and specified during the next update to this document.

A waiver or reduction request must be in writing and communicated to Council to allow opportunity for comment. If the City Manager or their designee agrees to said waiver or reduction, he/she shall inform the City Council, in writing, of the request and his/her decision, except in minor matters (defined as waivers or reductions valued at \$1,000 or less).

Effective Dates and Resolutions

The FY 2023 and FY 2024 Master Fee Schedule fees are effective as of July 1, 2023 with the adoption of Resolution #R46-2022, adopted by City Council on June 4, 2022, unless otherwise noted.

1. ADMINISTRATION

a. Billable Hourly Rates

The City employee billable hourly rate shall be calculated as 2.5 times step 4 of the employee's job classification, to the nearest \$5 increment, unless otherwise specified. The classification schedule can be found on the City of Milwaukie website under Human Resources.

This calculation shall be used to recover costs for those services billed on an hourly basis, including, but not limited to professional services such as planning, engineering, public works, utility, financial, legal, and police services. The use of a multiplier of 2.5 is intended to recover all overhead, training, benefits, and other costs associated with a city employee's time. Any work performed during overtime hours shall be billed as the calculated hourly rate multiplied by 125 percent. The City Manager and/or department directors are authorized to adjust calculated billings to reflect the impact of unusual circumstances or situations.

2. BUILDING

Building fees include structural, mechanical, plumbing, and electrical charges. Fees are applicable to residential, commercial, and industrial properties unless otherwise specified.

Annual Adjustment

Structural, mechanical, electrical and plumbing designated permit fees shall be automatically adjusted by 2.5% each July 1st based on the average percentage of the changes in the Western Consumer Price Index (CPI-U) second half report, published in February for the last 5 years, effective July 1st, 2023 ending July 1, 2028.

Delinquent Registration	10% of the original business tax plus interest at 9% per annum from the due date until full payment is received.	

Metro Business License versus City Business Registration or Both:

Instead of obtaining separate business licenses/registrations within each Portland-area city that you conduct business in, you can purchase a single license from Metro to construct, alter, and repair structures in 20 cities that have licensing/registration requirements in the metropolitan area, excluding Portland. The license covers all construction trades, both commercial and residential, as well as all landscape contractors. Exception: if your principal place of business is inside the City of Milwaukie, the business is required to apply for a City of Milwaukie Business Registration in addition to the Metro license.

For Metro applications, contact Metro at 503-797-1620 or visit their website at: <http://www.oregonmetro.gov/tools-working/regional-contractors-business-license>

4. DOWNTOWN PARKING

Water² – per lineal foot of site frontage	\$360.00	\$375.00
Stormwater³ – per lineal foot of site frontage	\$255.00	\$265.00
Wastewater⁴ – per lineal foot of site frontage	\$240.00	\$250.00
Stormwater Management⁵ – per square foot of new or changed	\$14.00	\$14.00

FILOC may be available as an alternative to construction of minimum required improvements in accordance with MMC 13.32. FILOC for Transportation, Water, Stormwater, Wastewater, and Stormwater Management Facilities are established by City Council based on impact of development on the infrastructure serving the proposed use. FILOC for Transportation, Water, Stormwater, and Wastewater are based on historical costs to construct the facility per lineal foot of frontage. FILOC for Stormwater Management Facilities is based on historical costs to construct a facility per square foot of added or changed impervious area draining to the public system. FILOC is indexed for inflation annually using the Engineering News-Record Construction Cost Index (CCI) for Seattle, WA (Resolution #79-2016), based on a 5-yr running average.

¹ Transportation FILOC is based on the historical cost to construct the minimum standard improvements for a local street.

² Water FILOC is based on the historical cost to construct the minimum standard water main.

³ Stormwater FILOC is based on the historical cost to construct the minimum standard storm main.

⁴ Wastewater FILOC is based on the historical cost to construct the minimum standard sanitary sewer main.

⁵ Storm Water Quality FILOC is based on the historical cost to construct the minimum required water quality facility for impervious surfaces created that drain to a public storm system without treatment.

The fee for a copy of any planning document (e.g. the comprehensive plan, the zoning ordinance, ancillary plans, etc.) shall be charged based on the number of copied pages. The standard City copy fee shall apply; refer to section 8 of this document.

¹ Fee will be refunded if applicant prevails. If claim is denied, additional money may be required to cover contract-attorney or appraiser costs, as determined by City Manager.

² Waived for LUCS for emergency sewer connection.

³ Fee applies to site plan revisions generated by applicant, not those required by staff during review process.

11. TREES IN THE CITY

Trees are considered valuable urban infrastructure that should be nurtured and protected as a community asset. The Milwaukie Municipal Code Chapter 16.32 Tree Code, Council Ordinance 2197 is to establish, maintain, and increase the quantity and quality of tree cover on land owned or maintained by the City and within rights-of-way, and to ensure our urban forest is healthy, abundant, and climate resilient.

Per the City of Milwaukie Tree Code, a right-of-way (ROW) tree removal permit is required for all trees that are over 2" DBH (diameter at breast height) that are located in the ROW or on city property. A tree is considered to be in the ROW if any portion of its trunk falls in the ROW. A pruning permit is required if more than 20% of the tree's canopy is going to be removed or if more than 10% of its root system will be impacted. To prune or remove a tree that is in the ROW, an ROW permit application must be submitted along with a \$50.00 application processing fee. A permit application is typically approved if the tree is invasive, dead/dying, diseased, has significant infrastructure impacts that cannot be reasonably mitigated, or poses an unreasonable risk to public safety. Replanting a street tree from Milwaukie's approved Street Tree List is a condition of permit approval.

13. SDC & CONSTRUCTION EXCISE TAX

SDC fees for Water, Stormwater, and Transportation shall be indexed for inflation annually using the Engineering-News Record Construction Cost Index (CCI) for Seattle (Resolution 40-2007). The CCI increase is 2.5%. Based on Oregon State Statute (ORS 223.304), the charges are broken down into three components; (1) reimbursement (to recover existing facility capacity available for growth), (2) improvement (to recover planned capacity improvements for growth), and (3) administration (to recover direct costs).

*Utilities continued***Comparison Graph – Single Family Residential for FY 2023**

These graphs compare the average utility bills for the neighboring cities surrounding Milwaukie. As some cities bill monthly, some bill every two months, and some bill every three months, these amounts are converted to average monthly amounts, so they are comparable to Milwaukie. Also, cities increase different rates at different times during the year; therefore, this graph is simply a picture in time reflecting the rates at the time that the survey was conducted. And finally, cities have different average water consumption amounts per household; so for the sake of this comparison, these rates are computed using an average 6ccfs of water used per month to be comparable to Milwaukie's overall average. Below are Milwaukie's calculations:

Fiscal Years 20213 & 20224
MASTER FEE SCHEDULE

City of Milwaukie, Oregon

The City of Milwaukie provides a full range of municipal services to the community, including police protection, traffic control and improvement, street maintenance and improvement, water, wastewater, and surface water management services, planning and zoning regulation, building inspection and regulation, and community library services. This Master Fee Schedule consolidates all City fees and charges adopted by City Council resolution for the various services that the City provides. Typically, it is updated annually and reflects all fee resolutions passed by Council during the year.

Fee Variance and Waiver Statement

Based upon an unusual circumstance or event, past practices, demonstrated hardship, or public benefit, the City Manager is authorized to waive or decrease a fee(s) or charge(s) in a matter or establish a fee not yet authorized in this schedule. When a new fee is established by the City Manager it shall be incorporated into this document, and it shall be included and specified during the next update to this document.

A waiver or reduction request must be in writing and communicated to Council to allow opportunity for comment. If the City Manager or their designee agrees to said waiver or reduction, he/she shall inform the City Council, in writing, of the request and his/her decision, except in minor matters (defined as waivers or reductions valued at \$1,000 or less).

Effective Dates and Resolutions

The FY 2021 and FY 2022 Master Fee Schedule fees are effective as of July 1, 2022 with the adoption of Resolution #R55-2021, adopted by City Council on June 4, 2022, unless otherwise noted.

1. ADMINISTRATION

a. Billable Hourly Rates

The City employee billable hourly rate shall be calculated as 2.5 times step 4 of the employee's job classification, to the nearest \$5 increment, unless otherwise specified. The classification schedule can be found on the City of Milwaukie website under Human Resources.

This calculation shall be used to recover costs for those services billed on an hourly basis, including, but not limited to professional services such as planning, engineering, public works, utility, financial, legal, and police services. The use of a multiplier of 2.5 is intended to recover all overhead, training, benefits, and other costs associated with a City employee's time. Any work performed during overtime hours shall be billed as the calculated hourly rate multiplied by 125 percent. The City Manager and/or department directors are authorized to adjust calculated billings to reflect the impact of unusual circumstances or situations.

2. BUILDING

Building fees include structural, mechanical, plumbing, and electrical charges. Fees are applicable to residential, commercial, and industrial properties unless otherwise specified.

Annual Adjustment

Structural, mechanical, electrical and plumbing designated permit fees shall be automatically adjusted by 2.5% each July 1st based on the average percentage of the changes in the Western Consumer Price Index (CPI-U) second half report, published in February for the last 5 years, effective July 1st, 2023 ending July 1, 2028.

a. Structural Permits¹

Valuation shall be calculated in accordance with OAR 918-050-0100.

Temporary Business (2 weeks or less)	\$30.00	\$30.00
Delinquent Registration	10% of the original business tax plus interest at 9% per annum from the due date until full payment is received	

Metro Business License versus City Business Registration or Both:

Instead of obtaining separate business licenses/registrations within each Portland-area city that you conduct business in, you can purchase a single license from Metro to construct, alter, and repair structures in 20 cities that have licensing/registration requirements in the metropolitan area, excluding Portland. The license covers all construction trades, both commercial and residential, as well as all landscape contractors. Exception: if your principal place of business is inside the City of Milwaukie, the business is required to apply for a City of Milwaukie Business Registration in addition to the Metro license.

For Metro applications, contact Metro at 503-797-1620 or visit their website at:

Stormwater Management⁵ – per square foot of new or changed	\$134 <u>0</u> .00	\$134 <u>0</u> .00

FILOC may be available as an alternative to construction of minimum required improvements in accordance with MMC 13.32. FILOC for Transportation, Water, Stormwater, Wastewater, and Stormwater Management Facilities are established by City Council based on impact of development on the infrastructure serving the proposed use. FILOC for Transportation, Water, Stormwater, and Wastewater are based on historical costs to construct the facility per lineal foot of frontage. FILOC for Stormwater Management Facilities is based on historical costs to construct a facility per square foot of added or changed impervious area draining to the public system. FILOC is indexed for inflation annually using the Engineering News-Record Construction Cost Index (CCI) for Seattle, WA (Resolution #79-2016), based on a 5-yr running average.

¹ Transportation FILOC is based on the historical cost to construct the minimum standard improvements for a local street.

² Water FILOC is based on the historical cost to construct the minimum standard water main.

³ Stormwater FILOC is based on the historical cost to construct the minimum standard storm main.

⁴ Wastewater FILOC is based on the historical cost to construct the minimum standard sanitary sewer main.

⁵ Storm Water Quality FILOC is based on the historical cost to construct the minimum required water quality facility for impervious surfaces created that drain to a public storm system without treatment.

¹ For a complete list of land use application types, see Milwaukie Municipal Code Table 19.901.

² Res. #77-2011, adopted 8/16/11.

^{3,3} See MMC 19.402.6.A for Type I tree removal. For tree removal in the right of way see section 5.

^{3,4} Required for any tree removal that is not Type I (MMC 19.402.8.A) or exempt (MMC 19.402.6.A). For tree removal in the right of way see section 5.

^{4,5} Fees waived for applications that meet all three of the following criteria: (1) the application involves only a habitat conservation area (HCA) and not a water quality resource (WQR), (2) the property is used for residential purposes, and (3) the current owner was the owner prior to September 15, 2011.

^{5,6} The fee includes the zone change to apply the PD symbol to the zone map. Any change to the base zone requires an additional Type IV application and fee.

⁷ Replat fees are similar to those of the action they replicate, except that, if the standard application fee for whichever review type the replat is subject to is higher than the one listed in this table, the standard application fee for that review type is the one that will apply to the replat.

⁶⁸ A subdivision application fee is required for any subdivision that is being reviewed as part of a Planned Development.

 - more than four residential units, or
 - construction with more than 10,000 sq. ft. of new or additional floor area
- Type III applications, except for;
 - variances on sites with three or fewer residential units, or
 - natural resources or Willamette Greenway review
- Type IV or V applications

Note: The City Manager (or designee) may reduce the fee for Early Assistance for a major application where it can be demonstrated that the level of staff effort required will be similar to what would be required for a Minor Application.

¹ Applies to optional meetings attended by a maximum of two City staff. No written notes provided.

² Applies to required or optional meetings that require three or more City staff. Written summary notes provided two weeks after meeting.

The fee for a copy of any planning document (e.g. the comprehensive plan, the zoning ordinance, ancillary plans, etc.) shall be charged based on the number of copied pages. The standard City copy fee shall apply; refer to section 8 of this document.

¹ Fee will be refunded if applicant prevails. If claim is denied, additional money may be required to cover contract-attorney or appraiser costs, as determined by City Manager.

² Waived for LUCS for emergency sewer connection.

³ Fee applies to site plan revisions generated by applicant, not those required by staff during review process.

11. TREES IN THE CITY

Trees are considered valuable urban infrastructure that should be nurtured and protected as a community asset. The Milwaukie Municipal Code Chapter 16.32 Tree Code, Council Ordinance 2197 (Resolution 11/17/2020), is to establish, maintain, and increase the quantity and quality of tree cover on land owned or maintained by the City and within rights-of-way, and to ensure our urban forest is healthy, abundant, and climate resilient.

Per the City of Milwaukie Tree Code, a right-of-way (ROW) tree removal permit is required for all trees that are over 2" DBH (diameter at breast height) that are located in the ROW or on city property. A tree is considered to be in the ROW if any portion of its trunk falls in the ROW. A pruning permit is required if more than 20% of the tree's canopy is going to be removed or if more than 10% of its root system will be impacted. To prune or remove a tree that is in the ROW, an ROW permit application must be submitted along with a \$50.00 application processing fee. A permit application is typically approved if the tree is invasive, dead/dying, diseased, or poses an unreasonable risk to public safety. If the tree is healthy, the City of Milwaukie encourages applicants to reconsider removing the tree.

12.13. SDC & Construction Excise Tax

SDC fees for Water, Stormwater, and Transportation shall be indexed for inflation annually using the Engineering-News Record Construction Cost Index (CCI) for Seattle (Resolution 40-2007). The CCI increase is 2.5%. Based on Oregon State Statute (ORS 223.304), the charges are broken down into three components; (1) reimbursement (to recover existing facility capacity available for growth), (2) improvement (to recover planned capacity improvements for growth), and (3) administration (to recover direct costs).

Wastewater System Development Charge

A wastewater unit is equal to 16 fixture units derived from Table 7-3 of the Oregon Plumbing Specialty Code. Each residential dwelling unit is 1 wastewater unit. Accessory Dwelling Units (ADUs) and duplex units are assumed to have a lesser impact and will be charged at 65% of the EDU rate. Multi-family over two units and all other development will be charged based on actual number of plumbing fixture units.

Some uses have monthly caps that are adjusted annually for CPI published by the Bureau of Labor Statistics. Current maximums are \$319.13 for the SSMP and \$419.42 for the SAFE programs as applicable. Visit www.milwaukieoregon.gov/commercialfee for more information.

³ An EDU or "equivalent dwelling unit" is a unit of measurement of sewer usage that is assumed to be equivalent to the usage of an average dwelling unit.

⁴ After hours service is Monday-Friday 3:00-8:00 p.m.; Saturday and Sunday 8:00 a.m.-8:00 p.m.

Comparison Graph – Single Family Residential

FY 2021

These graphs compare the average utility bills for the neighboring cities surrounding Milwaukie. As some cities bill monthly, some bill every two months, and some bill every three months, these amounts are converted to average monthly amounts, so they are comparable to Milwaukie. Also, cities increase different rates at different times during the year; therefore, this graph is simply a picture in time reflecting the rates at the time that the survey was conducted. And finally, cities have different average water consumption amounts per household; so for the sake of this comparison, these rates are computed using an average 6ccfs of water used per month to be comparable to Milwaukie's overall average. Below are Milwaukie's calculations:
