

Police update?

Minutes from September

-3-creeks natural area floodplain enhancement project

Take the survey

**small group of neighbors with some knowledge of the site and could meet over zoom? A small group of 3 to 4 neighbors would be good – we want to be able to present the concept, listen to feedback, and understand questions. We're meeting with businesses, emergency services, the college, and others before the December meeting.**

10/25 4-5 or 5-6

Some access may shift due to wet soils or to protect sensitive areas, but the ability for the community to connect to the site will continue.

Urbanization is taking a toll on the site, with streams eroding, habitat changing, and flooding of developed properties becoming more common. This project will enhance the floodplain, improve water quality, improve fish and wildlife habitat, and provide opportunities for outdoor recreation and environmental education on the site, where feasible.

Adopt a road date set for Nov. 6<sup>th</sup>

Also Arbor Day- 8:30am meet at Johnson creek station, drive around plant trees  
You need to register

Planning Commission Update?

PSAC?

Land use?

Linwood Ave isn't that bad!?
