11. TREES IN THE CITY

Trees are considered valuable urban infrastructure that should be nurtured and protected as a community asset. The Milwaukie Municipal Code Chapter 16.32 Tree Code, Council Ordinance 2197 is to establish, maintain, and increase the quantity and quality of tree cover on land owned or maintained by the City and within rights-of-way, and to ensure our urban forest is healthy, abundant, and climate resilient.

Per the City of Milwaukie Tree Code, a right-of-way (ROW) tree removal permit is required for all trees that are over 2" DBH (diameter at breast height) that are located in the ROW or on city property. A tree is considered to be in the ROW if any portion of its trunk falls in the ROW. A pruning permit is required if more than 20% of the tree's canopy is going to be removed or if more than 10% of its root system will be impacted. To prune or remove a tree that is in the ROW, an ROW permit application must be submitted along with a \$50.00 application processing fee. A permit application is typically approved if the tree is invasive, dead/dying, diseased, has significant infrastructure impacts that cannot be reasonably mitigated, or poses an unreasonable risk to public safety. Replanting a street tree from Milwaukie's approved Street Tree List is a condition of permit approval.

Trees in the City continued

On April 19th, 2022, residential tree code (Ord. 2216) was adopted unanimously by city council as a way to compliment the comprehensive plan housing and parking code updates while preserving and enhancing tree canopy in Milwaukie. Being a primarily residentially zoned community, the majority of Milwaukie's tree canopy is located on private property. To meet the established canopy goals of 40% canopy cover by 2040, Milwaukie adopted residential tree protections as a way to preserve existing trees and require the replanting of trees if another is removed. Development sites must also meet robust tree standards to ensure that new housing units are constructed with the community's canopy goals in mind.

Effective May 19th, 2022, trees that are greater than 6" DBH on residentially zoned private properties are regulated by the Milwaukie Tree Code (MMC 16.32.042). Property owners looking to remove a tree in a non-development situation must apply for a Type 1 or Type 2 tree permit before removal. Type 1 tree permits are for removal circumstances where the tree is dead, dying, hazardous, or impacting infrastructure or public safety in ways that cannot be mitigated. Type 1 tree permit applications are available at no cost to the applicant, and no removal fees are required. Type 2 tree permits are for the elective removal of healthy trees. Type 2 tree permits incur a \$50.00 application fee and if approved, applicants must pay healthy tree removal fees. Replanting is a condition of approval for most permitted tree removals.

Development tree code applies when new or additional housing units are constructed on residentially zoned properties, or when a property is being subdivided with the intention of constructing new housing units. The development tree code includes standards for tree preservation, tree planting, tree protection and soil volume requirements which must be met or mitigated for. Milwaukie's urban forest staff work with the city's community development department and engineering department, as well as the developers themselves, to meet the standards of the new tree code and integrate the requirements with the existing land use code and Public Works standards to create development sites that achieve the city's housing, parking and canopy goals.
